

NAXOS MUSIC LIBRARY

HOW TO USE THE NML APP

Naxos Music Library (NML) is the world's largest online classical music streaming library. It offers over a million tracks of Classical, Jazz, World, Folk and Chinese music. It includes the complete BIS, Chandos, Hänssler, Hungaroton, Marco Polo, Naxos, Ondine and selected titles of other leading independent labels, with over 1,000 albums added monthly.

The app can be used on an iPad, iPhone or iPod Touch with iOS 9.0 and up or on an Android device with Android 4.0.3 and up.

It allows you to search for music and stream it immediately and also to create playlists that you can return to at any time. You can also download tracks and playlists to listen offline for 30 days.

Our subscription allows for a limited number of concurrent users. If we reach the maximum number you will receive a warning message advising you to try again later.
